No surgeons performed 10 or more procedures statewide	n/a	n/a
Notice Value data are from DUOED Harrital Disabases Data for EVOCOF		

Notes: Volume data are from DHCFP Hospital Discharge Data for FY2005.

Cost data are from DHCFP 403 Hospital Cost Report for FY2004. Costs are reported at the hospital organization level.

Surgeons are not listed if they performed fewer than 10 procedures statewide in 2005. Surgeries performed in US government hospitals (e.g., Veteran's Affairs (VA) hospitals) are not included in this report.

ICD-9-CM Definition: Discharges for the volume calculation were determined based on the ICD-9-CM procedure code of 81.54 – total knee replacement.

Hospital volume was determined by the presence of the procedure code in any of the procedure fields with each patient being counted only once. Physician volume was determined by the presence of the procedure code in the primary procedure field only.

Hospital Cost Category (surgeon fee not reflected):

\$ = Hospitals in the lowest 25% of costs. Cost = less than \$8,917.

\$\$ = Hospitals in the middle 50% of costs. Cost = \$8,917-\$13,296. \$\$\$ = Hospitals in the highest 25% of costs. Cost = greater than \$13,296.
